10x16' 10 pitch roof shown with optional porch pictured in tan color and brown trim

10x24' with 12 pitch roof

The buildings on this page all feature a special hinged roof. This hinged roof structure is just as strong and as durable as their non-hinged counterparts. It allows us to "knock down" buildings that are too large to be transported by conventional means. Once the building is placed in its intended site, the hinged roof is folded and secured in place.

Step 4

20x24' two story double wide garage with 8 pitch roof, and shown with optional homestead doors and tan paint with red trim

Step 3

Step 2

Step 1

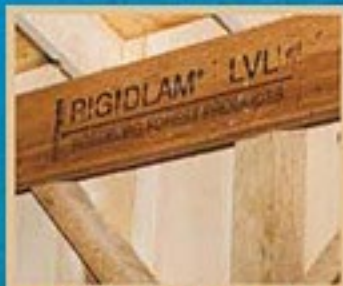

12x24' garage with 12 pitch roof, tan paint and green trim
